ASSIGNMENT (Upload the solution to the CATs by your ID)

Use the Northwind database to answer the questions below. You can find the backup file of the database on CATS.

Query 1: List the names of suppliers who provide products that belong to the category "Seafood". (Remove duplicates)

Query 2: Display the total quantity sold and total revenue generated for each supplier.
Your output should look like this:

	SupplierName	TotalQuantitySold	TotalRevenue
1	Aux joyeux ecclésiastiques	1416	153691.275178909
2	Plutzer Lebensmittelgroßmärkte AG	4072	145372.399160385
3	Gai pâturage	3073	117981.180160522
4	Pavlova, Ltd.	3937	106459.775501251
5	G'day, Mate	2108	65626.7701091766
6	Forêts d'érables	1686	61587.57006073
7	Pasta Buttini s.r.l.	1697	50254.6100997925
8	Formaggi Fortini s.r.l.	2500	48225.1649436951
9	Specialty Biscuits, Ltd.	2851	46243.9798936844
10	Norske Meierier	2526	43141.5100288391

Note: I will have a Zero-Tolerance approach to cheating. If you copy from another's scripts or allow someone to send same assignment, I will give zero grade to those who posted the same assignment.
